**ADDRESSING THE SHORTAGE OF QUALIFIED ACTUARIAL  
PROFESSIONALS IN THE INSURANCE INDUSTRY**

As actuaries, many of us already find ourselves in rooms and spaces that were not structurally designed with us in mind. Actuaries in the Arena creates an opportunity to use our voices not only to take up space, but to help build spaces for those who come after us.

In this upcoming session, we take a step back to spotlight postgraduate students who have produced a research paper on addressing the shortage of qualified actuarial professionals in the insurance industry. Join us for a meaningful conversation on representation, access, and the collective role we can play in shaping a more inclusive and sustainable future for the profession.
